CYPRUS - NCP INPUT

The Common Framework was the template used to provide input to the Strategic Research Agenda (SRA) for the JPI Cultural Heritage and Global Change. These are inputs to the Common Framework from the individual participating country named above. To find out more about the process involved in the creation of the SRA, please go to www.jpi-culturalheritage.eu

EUROPEAN PRIORITIES		
Driver	**Identifier**	**Research Area**
Interpretation	I.6	Reference collections
Access	A.1	Dissemination of cultural heritage knowledge
Recognition	R.1a	Cultural Heritage ethics and identity
Interpretation	I.13	Interdisciplinary approaches to cultural heritage
Access	A.4	Interaction with digital cultural heritage
Use	U.1	Linking quantitative and qualitative data around cultural heritage
Recognition	R.2a	Value of Cultural Heritage
Protection	P.3	Digital content
Recognition	R.5	Rights and responsibilities around cultural heritage
Use	U.4	New uses for cultural heritage
Access	A.16	IP rights and copyright issues (also for new media)
Interpretation	I.1	Cultural interpretations of heritage

CYPRUS PRIORITIES		
Driver	**Identifier**	**Research Area**
Access	A.1	Dissemination of cultural heritage knowledge
Access	A.9a	Management strategies for secure access to objects
Recognition	R.1a	Cultural Heritage ethics and identity
Use	U.3	Revitalisation of built and landscape heritage
Recognition	R.2a	Value of Cultural Heritage
Access	A.10a	Security technologies and systems in museums, libraries, archives and historic buildings
Use	U.2	Geographic Information System on tangible and intangible cultural heritage
Interpretation	I.13	Interdisciplinary approaches to cultural heritage
Recognition	R.5	Rights and responsibilities around cultural heritage
Access	A.16	IP rights and copyright issues (also for new media)
Protection	P.4a	Materials, technologies and procedures for maintenance and conservation of cultural heritage
Interpretation	I.6	Reference collections

The following are additional comments provided by Cyprus on gaps and needs.

Main driver (as identified in the DoW)	Additional drivers	Identifier	Addition? Include new identifier	Research area	Research gaps	Research needs
Interpretation		I.8		Natural history	Development of genomic and metabolomic databases of natural history collections for better understanding of past environments, natural and social; AND PAST CULTURAL PRACTICES AFFECTING PLANTS, ANIMALS, HUMAN BODIES	Development of technologies, protocols, databases.
Interpretation		I.6		Reference collections	Development and characterisation of reference heritage, BIOARCHAEOLOGICAL REMAINS, and art material libraries, systems for their cataloguing and data accessibility, including GIS	Development of databases.
Interpretation		I.13		Interdisciplinary approaches to cultural heritage	Developing an interdisciplinary approach to understanding cultural heritage	Development of research frameworks or methodologies that draw on a range of evidence on cultural heritage – oral, aural, visual, MATERIAL, and written.
