

ROMANIA - NCP INPUT

The Common Framework was the template used to provide input to the Strategic Research Agenda (SRA) for the JPI Cultural Heritage and Global Change. These are inputs to the Common Framework from the individual participating country named above. To find out more about the process involved in the creation of the SRA, please go to www.jpi-culturalheritage.eu.

Use	U.3	Revisalisation of built and landscape heritage	Sustainable strategies for built heritage and landscape use/management	Development of policy and strategies.	Active participation of cultural heritage in economic life of society	Increased quality of life of society, increasing public support for cultural heritage	Increased lifetime of historic buildings/landscapes; increased number of visitors, revitalisation of degraded areas	Reduced CO2 emission due to increased lifetime of buildings	1					
Use	U.4	New uses for cultural heritage	Influence of new uses of landscapes (for example management techniques) and built heritage on their tangible and intangible cultural heritage values	Development and exploration with new management techniques of built heritage, sites and landscapes; in balance with the activities/wishes of the local people.	Maintenance of cultural heritage values of built and landscape heritage				11					
Access	A.5	Technical recognition of moving and still images	Moving and still images are not searchable	Development of techniques that identify images rather than textual representations.	Improved accessibility to large amounts of still and moving images	Increased access to cultural heritage	Benefits to creative industries and other commercial uses	Neutral	12					
Access	A.11	Management strategies for secure access to archaeological sites and cultural landscapes	Techniques/approaches for sustainable management, mechanisms for public presentations and access of sites and landscapes	Development and exploration of access policy of built heritage, sites and landscapes.	Reduced risks related to extensive public access	Public access of cultural heritage	Increased number of visitors	Improved sustainability	6					
Interpretation	I.4	Research infrastructure	Coherent methods and instruments	Integration of research infrastructure accessible for cultural heritage sector.	Raising awareness; new tools for investigations of cultural heritage	Innovation in this area will be useful for other fields important for society e.g. health, forensic	Neutral	Neutral	5					
Interpretation	I.11	Historic integrity and modern use of built heritage and cultural landscapes	Balance between historic integrity and modern use of buildings, cultural landscape, including tourism and lifestyles	Improving our understanding of the origin and intention of the architects/planners and determining the effectiveness of modern application of traditional uses to cultural heritage.					7					
Interpretation	I.13	Interdisciplinary approaches to cultural heritage	Developing an interdisciplinary approach to understanding cultural heritage	Development of research frameworks or methodologies that draw on a range of evidence on cultural heritage – oral, aural, visual and written.	Better informed research.	Research that takes into account all aspects of available research	Increase of innovation; better value for money	environmental impact of research is not repeated	2					
Protection	P.4b	Materials, technologies and procedures for maintenance and conservation of cultural heritage	Long-term effects of conservation treatments, carried out at present and in the past, on historic materials, objects and sites, including modelling and simulation of these effects, in order to improve the materials and procedures of the conservation practice	Development of evaluation methodologies.	Preservation of authentic substance and value of cultural heritage	Raising awareness of the standards required for cultural heritage protection.	Decreased cost of misguided conservation treatments due to increase time span between conservation treatments	Neutral	3					
Protection	P.8	Landscape heritage	Protection of cultural landscape and heritage	Development of strategies towards conservation of cultural heritage; new forms of governance.	Protecting landscape heritage; rising awareness of heritage value	Raising awareness of the heritage; enhancement of local identity	Revitalized degraded areas; job creation	Preserve physical condition of landscapes	4					
Recognition	R.1b	Cultural Heritage ethics and identity	How does the use of cultural heritage contribute to identity at a personal, national, European, and/or global level?	Determining how cultural identity can contribute to the wellbeing of a community, including recovery from conflict.	How does the use of cultural heritage contribute to identity	Increased knowledge of the role of cultural heritage in society; increased wellbeing	New opportunities for the use of cultural heritage in commercial settings (e.g. creative industries)	Neutral	9					
Recognition	R.6a	Understanding values	Systematic research into value systems, including economic values and increased quality of life	Development of models, new theoretical concepts and understanding of non-financial benefits of cultural heritage.	Increased recognition of heritage	Understanding societal benefits	Increase/decrease in visitors; better understanding of and hence investment in cultural heritage.	Neutral	10					
Change	C.5	Global change adaptation	Opportunities for sites and cultural landscapes in reducing the effects of climate change	Knowledge global/climate change and effects on local scale.	See climate change as a chance for adaptive management of sites/landscapes			Reduction of effects climate change	8
